INDEX TO VOLUME 38

Abnormalities and Deformities: See under names of organs and regions, as Bladder; Foot; Kidneys; Spine; etc.

Abscess: See under names of organs and regions

Acetabulum: See Hip Joint

Adenitis: See Lymph Nodes

Adrenals, tumors, 596

Air, bactericidal and fungicidal effect of ultraviolet radiation; use of special unit for sterilizing air in operating room, 806

contamination, role of respiratory tract in; comparative study, 788

effect on wound healing of bactericidal ultraviolet radiation from special unit; experimental study, 797

Aird, R. B.: Regeneration of nerves after anastomosis of small proximal to larger peripheral nerves; experimental study concerned with relief of peripheral neurogenic paresis, 906

Albuminuria, orthostatic, 1150

Alcohol, ethyl, as germicide, 528

Allen, F. M.: Physical and toxic factors in shock, 155

Anastomosis, regeneration of nerves after anastomosis of small proximal to larger peripheral nerves; experimental study concerned with relief of peripheral neurogenic paresis, 906

Anderson, B. G.: Epulis; series of cases, 1030

Anesthesia, spinal; regulation of height with fractional doses, 287

Ankle: See Foot

Anomalies: See under names of organs and regions, as Bladder; Foot; Kidneys; Spine; etc.

Anthracene, effect of experimentally formed tumors on musculoskeletal system of rat, 1132

Anus, atresia ani urethralis; report of case, 501

Appendicitis, acute segmental appendicitis; experimental and clinical studies, 755

mesenteric lymphadenitis; report of 24 cases with tabulations showing relation to appendicitis and other diseases; need of better understanding of mesenteric lymph nodes, 131

Arms: See also Extremities; Humerus; etc.

fractures of upper extremity and shaft of humerus, 295

Arnold, H. R.: Resection of carcinomatous rectosigmoid juncture with reestablishment of intestinal continuity; preliminary report, 1004

Arteries: See Blood, pressure; Embolism; etc.

Arthritis: See also Osteoarthritis

rheumatoid, treatment with large doses of vitamin D, 967

Asphyxia, physical and toxic factors in shock, 155

Avitaminosis: See under Vitamins

Azochloramid: See Wounds

Bacteria: See Streptococci; etc.

Beard, J. W.: Experimental production of tumors of brain with Shope rabbit papilloma, 457

Behrend, A.: Total pneumonectomy, 698

Behrend, M.: Total pneumonectomy, 698

Bennett, G. E.: Hemangioma of joints; report of 5 cases, 487

Bernheim, A. R.: Parathyroidectomy for Raynaud's disease and scleroderma; late results, 543

Bernstein, P.: Ectopic pregnancy, diagnostic problem in gynecology; report of case, 864

Bile Ducts: See also Gallbladder

congenital cystic dilatation of bile and pancreatic ducts; necropsy 13 years after hepaticoduodenostomy, 397

Biliary Tract: See Bile Ducts; Gallbladder; Liver

Birth Injuries: See under Infants, newborn

Bladder: See also Urinary Tract

anomaly, 387

calculi, 394

diverticulum, 389

leiomyosarcoma of urinary bladder, 274

paralysis, 390

purpura of, 396

reconstruction, 394

rupture, 392

tumor, 387

Blood in thromboangiitis obliterans, 191

intestinal obstruction in man; alterations in serum bases and their significance, 869

pressure; effects on kidney and blood pressure of artificial communication between renal artery and vein, 886

pressure, high; intracranial hypertension of unknown cause; cerebral edema, 428

regional redistribution in experimental secondary shock, 556

transfusion; effects of hemorrhage and of transfusion on blood flow in extremity, 692

Bones: See also under names of bones

Diseases: See Osteochondritis; Osteomyelitis; etc.

effect of experimentally formed tumors on musculoskeletal system of rat, 1132

electrocoagulation of osseous tissues, 1159

formation in transplants from urogenital tract, 595

Bones—Continued
fragility; roentgen therapy in acute osteoporosis, 1150
giant cell tumor of, 974
hereditary bone tumors in mice, 1160
osseous lesions in experimental scurvy, 1160
osseous system in Hodgkin's disease, 976
primary hemangioma involving bones of extremities, 975
skeletal metastases in cancer of breast, 976
Brain: See also Meninges; Nervous System; Thalamus
intracranial hypertension of unknown cause; cerebral edema, 428
superior colliculi; their function as estimated from case of tumor, 471
swelling in cases of injury to head, 443
tumor as cause of disorders of autonomic nervous system, 816
tumor, experimental production with Shope rabbit papilloma, 457
Branch, C. D.: Consequences of instrumental dilation of papilla of Vater; experimental study, 358
Breast, benign tumors of, 79
fibrocystic disease of, 917
plastic operation on, 113
skeletal metastases in cancer of, 976
surgical importance of mammary and subcutaneous fat necrosis, 1
Brunschwig, A.: Oral administration of methylcholanthrene to mice, 328
Burman, M. S.: Posterior dislocation of lower femoral epiphysis in breech delivery, 250

Calcaneum, treatment of severe paralytic calcaneus, 1157
Calculi: See Bladder, calculi; Gallbladder, calculi; Kidneys, calculi; Ureters, calculi; Urethra, calculi; etc.
